METHODOLOGY
Prepared by OCHA   *Vetting and live service provision by Information Technology Outreach Services (ITOS) with funding from USAID.*

Ethiopia (ETH) Administrative Boundary Common Operational Database (COD-AB)

CAVEATS
Lake T'ana is not shown in administrative level 1 as it lies completely within the Amhara [ET03] kilil (region). Similarly, Lake Awasa is not shown in level 1 as it lies within (although bordering the edge of) SNNP (Southern Nations, Nationalities, and Peoples') [ET07] kilil. Both lakes form holes in administrative levels 2 and 3. In the administrative boundary dataset, two admin 3 units cannot be represented on maps because of their contested boundaries, but they are being used in all types of analysis. These are Dawe Serer (ET041199) in Oromia region and Quarsadula (ET050905) in Somali region. These two admin 3 units are included on HDX in other datasets, for example on the population statistics and humanitarian profile.
